

# Munimula Wine Tray

## Recycled Aluminium Wine Tray

Another item and great gift suggestion from Top3. The store is right next door to my Gym, so I can't help but stopping by at least once a week.

Created by MuNiMula (weird capitals are their idea, not mine) a design company based in Michigan USA, this wine tray holds a bottle and 4 glasses in an elegant anodized aluminium frame. It's available in 4 colors, including an untreated aluminium version (which I prefer)

\$98 at the munimula online store.
