UU22 Wine Tray by Munimula

Posted in [For Gals](#), [For Guys](#), [Home](#), [Style](#), [Tools & Accessories](#)

We love it when we find something that not only looks could but functions in a clever way. An elegant way to serve wine, this tray can hold from one to four stemmed glasses. Made from satin anodized aluminum, available in four different colored finishes, the 3.5" diameter opening is a perfect place to hold your wine bottle. And a neat little feature is that the base even has silicone rubber feet to stop it slipping too.

Cheers!
